

Small but Mighty Powerhouse Redefines Convenience

Meet the Transcend Micro™ – the smallest, lightest CPAP on the market. Delivering the comfort and effectiveness of a stationary device, the Transcend Micro's simple design and optional battery pack make it ideal for carry-on travel. Leave your bulky CPAP at home and enjoy reliability and unparalleled convenience with your new favorite travel companion.

“

I was surprised by its size, weight, and performance. I decided to use my Transcend Micro™ on a fabulous backpacking trip. I enjoyed restorative sleep every night for a month. I loved it!

~ Michelle D.

Because Your Health Is Worth It

You deserve to get your best rest when you need it the most. When Transcend created the first travel CPAP device in 2012, we did it with you, the traveler, in mind.

“

The Transcend Micro is a high-performance CPAP machine with a slew of features to help you sleep comfortably. The device is also exceptionally light and compact, making it a great option for frequent travelers.

Travel Light, Sleep Well

Transcend Micro™

The world's smallest
and lightest travel CPAP

Actual size

Why Choose the Transcend Micro™ travel CPAP?

Designed with convenience, comfort and quiet in mind

Created for More Comfortable Sleep

Pressure automatically adjusts to help you fall asleep and breathe easier

Whisper Quiet Operation

Includes a WhisperSoft™ muffler for light sleepers seeking restorative rest

Unplug and Sleep Anywhere

Transcend has a variety of battery and solar options for different uses

Mask Compatibility

Unlike other travel CPAP devices, no specific mask is required for use

Waterless Humidification

The Transcend AirMist heat moisture exchanger (HME) offers a waterless humidification alternative to a traditional humidifier

Track Your Sleep

The MySleepDash app tracks, monitors and shares your sleep progress with Bluetooth technology
